THE WIDOW BEDOTT: If you feel in the "biues," or are tired of your lot, As a tonic peruse the sweet 'Widow Bedott; The dark conds of care disappear from a rove When "Priscilla tee fair" tells the tale of her love.

There is wit in her cap as she chatters for hours; And her "weeds" of mishes are more lively than flor For her first love she mouraed, but at length dried her And then picusly turned unto "Shadrach the wise." Yourg widows, we know, are most "dangerous dears," For there's l. ve in their woe, a. d a smile in their tears

For we meditate deep, that, if death were our lot, No widow would weep as for "Deacon Bedott," We pity her pain, and the question will start, "Oh, could we but gain her unoccupied heart!" As a tonic for care—a promotive of laughter— Of mirth trat will bear no regrets to hereafter; Go read without fail, high or low be your lot. The queer, witty tale of the "Widow Bedott."

BY SYDREY A. STORY, Js.

In one large Dundectino Volume, 546 pp. Price 51 25.

The tille would lead the reader to infer that it has somewhat to do with the question of Slavery, and such is the case; its tendencies are powerfully against the line tuttion. But it is nevertheless in the best sense a Novel, and not merely an AntiSlavery tract in digrate. The characters and seenes have a vividatess which only genius can impart to ideal creations; and wheever commences the book with find his sympathic seations; characters of the charming hereins to the conclusion.

CASTE is not a "sectional" book. Its blows full as much upon Northern as upon Southern society. And while the vast misjority will read the book fit the blows full as much invited in the characters are investigated.

INTENSE INTERYST OF THE STORY, it will a wake a thinking men to a new phase of the all-absorbing question.

"The language, without exception, is reasonable exaggeration known as "fine writing;" the leding characters are claimed; individualized, and the prominent idea is add tidy worked out without being overworked." In. Y. Daly Times.

"As a whole "Gute" is a captivating and powerful work, the plet original, well canceived, and admirably worked out. It cannot fall to prove a "emastion book " and find more readereven than the popular " ida May," as it will be read more extensively at the South. No one who commences its perusal will lay! saide till the while story is known. The author is evidency a practiced writer, a cose observer of men and thisg, and familiar with rural life at the South as wall as at the North.

"It is written with power and pathos. The story is original the incidents natural, and, indeed, as things now are, necessary.

"We have no doubt of the success of this new book."

Vactional Erg.

"It is as distinctly original and novel as if its atsy, or its producesors, had never been written, and is strict y a novel, and not an anti-slavery tract disquised. True its teachings are adverse to the institution of slavery; but the realer draws this inference; it is not suggested other than as his own of duction from the events described. It is facely written, interesting, and cannot fail to count its readers by thousands." [Boston Atsa. Belleving this to be a work of genuine merit, unexceptionable in its one, graceful is style, and absorbing is interest, the publishers ask for it the attention of the reading community.

accounts sie career was the result of "a mind diseared," produced by being crossed in love, and forced into an incoegration and hated union.

This is certainly a very extraordinary back. It makes revelations of the most starting character. 'Henritat & binson,' (an assumed name) is represented as young, beautiful and accomplished; the daughter of one of the most sweathy and aris ocratic 'amilies at Quebec, who was married 'against the grain' to an officer of the Ninety-thire High-anders, the son of an Erghish noheman. The book esmot fail to make a seemation both here and in England. The sory of her sat life is well to did; and he reader will be led more than once to exclaim, 'Verily, truth is stranger than fittion.'"

We have read 'Hennetta Robinson' with some care, and cannot discover the tendency of the wors to injure public marality; but, on the contrary, we can see that it may have a putent in fluence in viadicating truth and in duleg a work of mercy. There is nothing in the impropriety of lenguage, no indiscortion should be sholen, in order that justice may be done thrown about acts of sin and crime—calculated to offeed the most fast-doue morality, or to exercise an evil influence in any way. If the mystery of the case is unvalled, 'it is a mystery hat must and sould be broken, in order that justice may be done and even the villest of the vile are entitled to justice. We know that first impressions without reflection and perual, see like y to condemn the work; but we are a afficient, that as it as peraed, the motives of the autoer and publishers will be vinducated."

"We have seen many rotices of this book in advance of its publication. There seems to be a general item prevalent that the publication of her life will work out evil. No good reason exists for this judgment. We have conficence to suggest the belief that the contrary will prove to be the nestory of the boas as it winds its way into the great m as of the community."

as it winds its way into the great m as of the cammanty."

Mrs. Robinson's story is redolent of interest, and with, we suppose, be read by every person who can obtain it. The solic scleened of everything offensive or ladelicate, and those who read it may derive from its pages an important and saintery lesson. A lady of our saqualitates, who was student in Mrs. Willard's with Mrs. Robinson, speaks of her as one who, us her better days, was endowed with every femsic virtue and attraction. As an immere of the State Prison at Sing Sing, Mrs. Robinson, we learn, deposits herself with the strictest propriety, and gives evidence of a subdued and contrite spirit."
